

**Real Time P&L**

Create location based real time P&L's. Share, view and manage real time P&L's with daily declining balanced budgets.

**Instant Daily G/L**

Push journals to multiple accounting systems with one click saving 1000's of manual entries each period. Systems include Sage, Great Plains, QuickBooks and others.

**Tightly Integrate with Accounting and POS Systems**

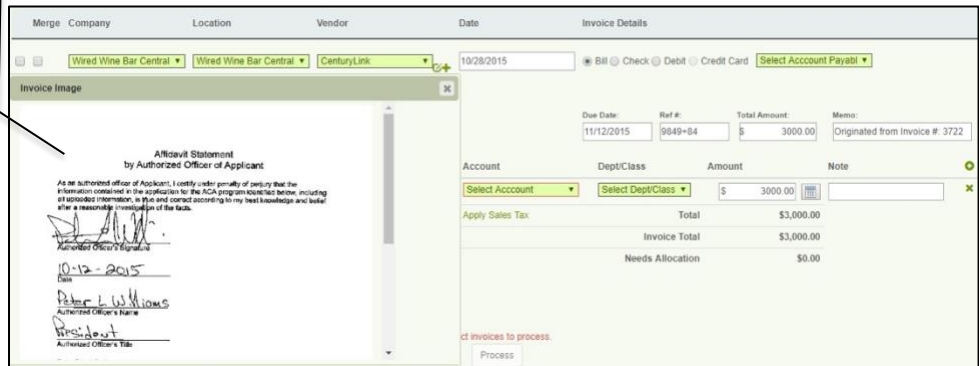

Enterprise views provide real-time visibility to the entire workforce, with full integration to business systems including POS, Payroll, Time Clock and Biometric devices.

**Simplify the Invoice Entry Process**

Simplifies and expedites the invoice entry process by accepting invoices electronically via email, fax, or scan. Invoices may then be reviewed by multiple staff members for accuracy and ease.

**Easily Upload/View Invoice Copies within eFish**

**"You just showed me what I spent 20 years trying to build and you are delivering it at a fraction of what I have spent (trying)."**

**-CFO, top-five QSR chain**

**AP processing**

Automate the AP process reducing hundreds of hours of data entry time with EDI and other feeds into suppliers for invoice images, costs, memorized transactions, purchase orders and more.

**Vendor Learning  
Reduces AP by 30%-60%**

eFish utilizes embedded software intelligence which learns how to handle all of your vendors. Our vendor learning eliminates 30%-60% of the steps required to enter invoices.

**Price Sheets by Location**

Import price sheets by location to create unique pricing at the location level while rolling costs and prices up to the company level.

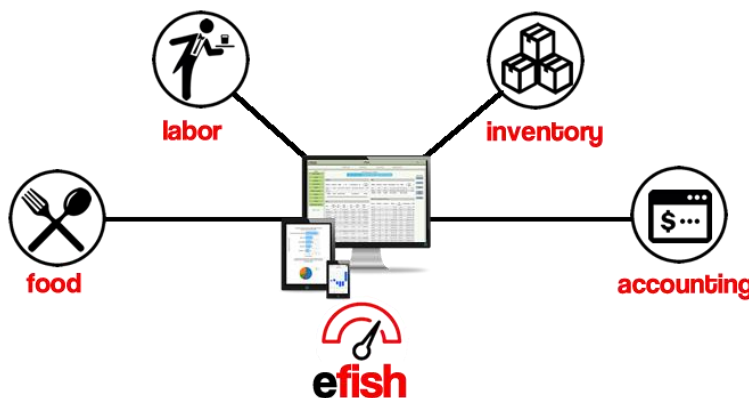

**Invoice Image History**

Expand access across the enterprise with views into invoices, transactions and invoice images without opening the accounting system. View invoice history, costs, transactions, and invoice images at the store level in real time. Reduce review and audit time from 7 days out to immediate visibility.

**Financial Modeling**

Instantly switch from current budget to in week updated budget to forecasted trending budget in one interface.

**Multi-Unit Coding**

Roll multiple companies under one organization to gain accurate visibility and expedite the distribution of costs across the organization with cost splits, percent allocations and unique rules that simplify the accounting process.

**Integrate with Multiple Solutions**

**Technical Requirements**

- 100% Web Based
- Any mobile device support
- SAAS or On-Premise
- Zero IT, Zero Hardware, Zero Headache.

**About eFish**

Every restaurant, every POS, every vendor, every accounting system, all in one place. Easy to see the latest on food, labor, inventory and accounting. Reduce Food and Labor costs by 9% or more.
