

## How to Save app.efish.biz to your home screen: For Android

1. Open google chrome (download chrome from app store if you do not already have it installed on your phone)

2. Go to the URL: app.efish.biz

6:21 🖾 👓 🔐 🖪 🚱 🕲	🌘 🛱 🖙 🖬 60% 🖥
app.efish.biz	۲

3. Log in using your Username and Password you created when you signed up (see sign-up how to for assistance if you have never logged into app.efish.biz)

4. Click the [3 Dots] in the upper right corner of the screen.

www.pointblanksoftware.com

## 5. Click [Add to Home Screen]

Deskte	Desktop site					

6. You can change the name to whatever you wish here (we suggest efish – schedule)

7. Click [Add] in the lower right corner of the pop-up

8. Done (you should now be able to launch efish directly from the home screen as you would any app)
